Sheepica followed her brother Harlan only to discover that he's really Caterang. Unbeknownst to him, she kept following and watched him train Strawberry and Lemonade in the woods. Strawberry is trying to find new strength within her to fight The Green Shadow more effectively, and Lemonade likes to invite herself to things. Anyway, Lemonade got her new power in the form of Super Citrus Lemonade. After Sheepica was discovered by the Alliterative 5, they captured her with their tree mech, Timberzorg-O. Super Citrus Lemonade saved Sheepica with her new fruit-headed powers, and Sheepica's cover was blown.

Strawberry lamented not yet having found her new inner power and Caterang took her deeper into the woods for some hardcore, late night training. Lemmz and Sheepica retired to Lemonade's tent. While having a conversation with Lemonade, Sheepica came to the startling conclusion that the superheroes she puts on a pedestal are, in fact, also human...oid beings.

Caterang and Strawberry began sparring in the woods. After getting a good shot in on Strawberry, Caterang appeared to... umm... disappear.

Today's marquee color palette is from Doraemon's sprite from Doraemon for Super Famicom.

HAPPY NEW YEARS AND STUFF!

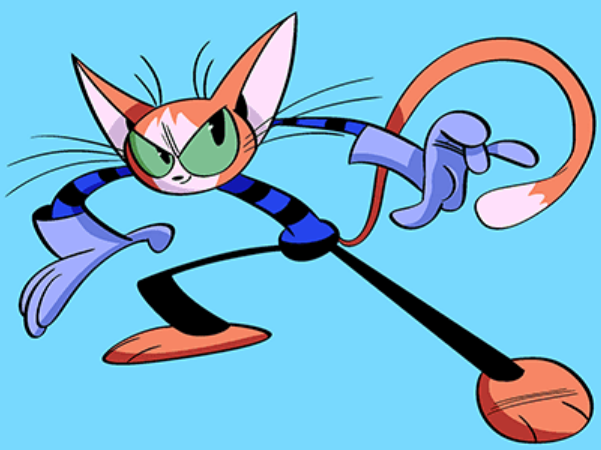
So, due to travel and illness, Kyle wasn't able to get his butt in gear and finish this week's comic in time. Sorry to leave the storyline for two weeks in a row! I offered to finish the comic for them. They said no.

So, sorry Charlie or whatever.

Here's a little something special, though: Kyle has a few potential new characters for the comic. They'll probably all end up here eventually, but whoever gets the most votes will be introduced in the next storyline!

FLASH FRISKERS

He's like a tiny, adorable, MacGuyver.



LEXTOPHER MARTIN

A rich elephant who really, really hates the Shebwooley-Kattans.
It'd be a shame if he found out Caterang's secret identity...

FAN GIRL

An exhuberant magical girl-type rookie.
She looks up to a veteran like Strawberry.
Strawbs has no idea how to react to that!

SPACE POLICE RAKKUN

An intergalactic lawman with rediculous in-suit helpers called "Trons".
He's offended that Strawberry rejects her raccoon side.

INSTAGATOR

He's a noodge.

So, there should be a poll below, assuming I can figure out how Wordpress works. Clickez-vois and let us know who you wanna see in the next storyline!

The marquee colors are from Leonardo's sprite from TMNT II: The Arcade Game from NES.

FROG RACCOON STRAWBERRY

Hi folks! I really, really needed a week off-ish. I recently started a new job, I'm getting prepared for Marscon, and I've been helping friends with various projects, so it's been a struggle to try and keep up with FRS. We'll get back to our story next week. In the meantime, I hope you enjoy this pin-up.

Sometimes, I stumble upon drawings of characters from fiction and what their Pokémon team might look like. I thought I'd give that a try this week. Strawberry's Pokémon team in this completely non-canon drawing is as follows:

Podsafe: Her level 100 Metapod.
PennyLane: Her Froakie who wears a Chespin shell.
Booker: Her Shellder who she really just keeps around to have staring contests with. Strawberry was recently informed that he is a shiny and hadn't had an overdose of beta carotene.
Hoser: Her A-shaped Unown that Strawberry owns in case she meets any Canadians.
Mandark: Her put-upon Darkrai who does all the actual work.
And, of course, **Fuzzums**, her Wailord.

This was colored by Lester Dilorenzo who you can find at lesterdilo.tumblr.com

DETAIL OF HELPERTONS

Strawberry the Red

It says "RED" right on her dumb head in case you forget what colors are.

This form enables Strawberry to get in touch with the inner literal strawberry she didn't know she had. I mean, it's just her name, right?

She looks really mad. She might have to be mad to hulk out and access it, but she may be able to control that later.

This new form enables Strawberry to access strawberry-based powers. So far that includes a sweet-smelling ball of energy called a Strawbehameha, which I guess qualifies as a pun or something. There may be other attacks as well, but so far, only one is known.

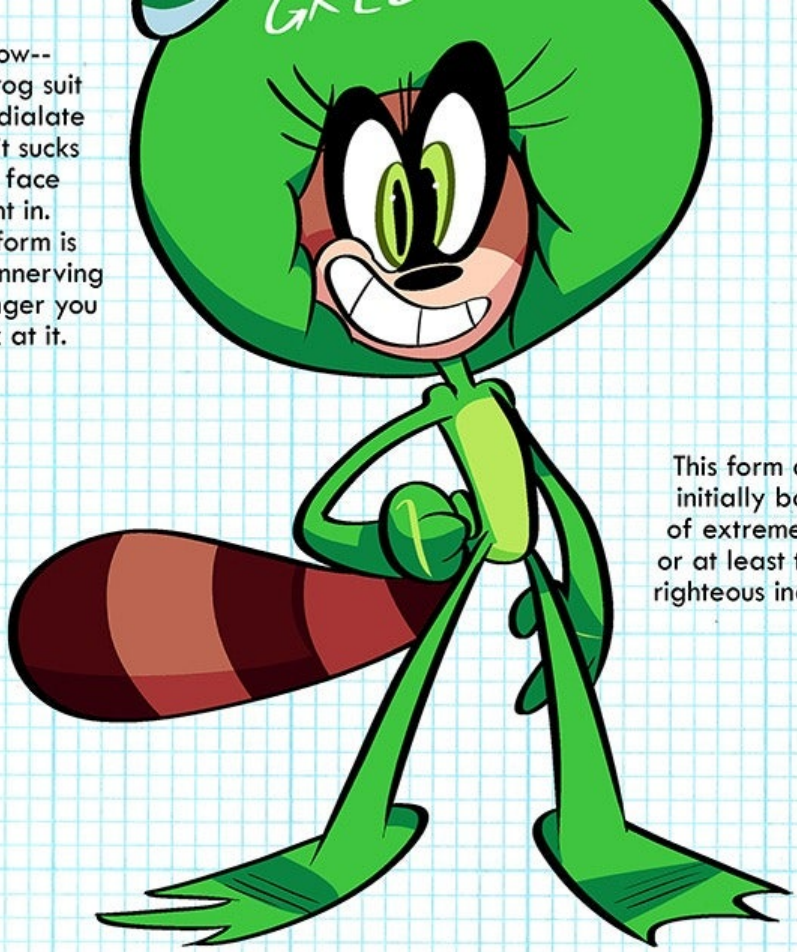
DETAIL OF HELPERTONS

Strawberry Even Greener

I suppose she really did have a lot of unused forehead real

estate.

Wow-- the frog suit eyes dialate and it sucks her face right in. This form is more unnerving the longer you look at it.



This form also was initially borne out of extreme anger... or at least teenaged righteous indignation.

Just when you thought she'd leveled up enough, here's another mid-season upgrade that she got about 10 minutes after the previous one. The attacks are all lillypad-based, and they're surprisingly devistating!

DETAIL OF HELPERTONS

Super Citrus Lemonade

Oh God, her head is huge. The whole deal is so much less sexy now. It's like a California Raisins nightmare.

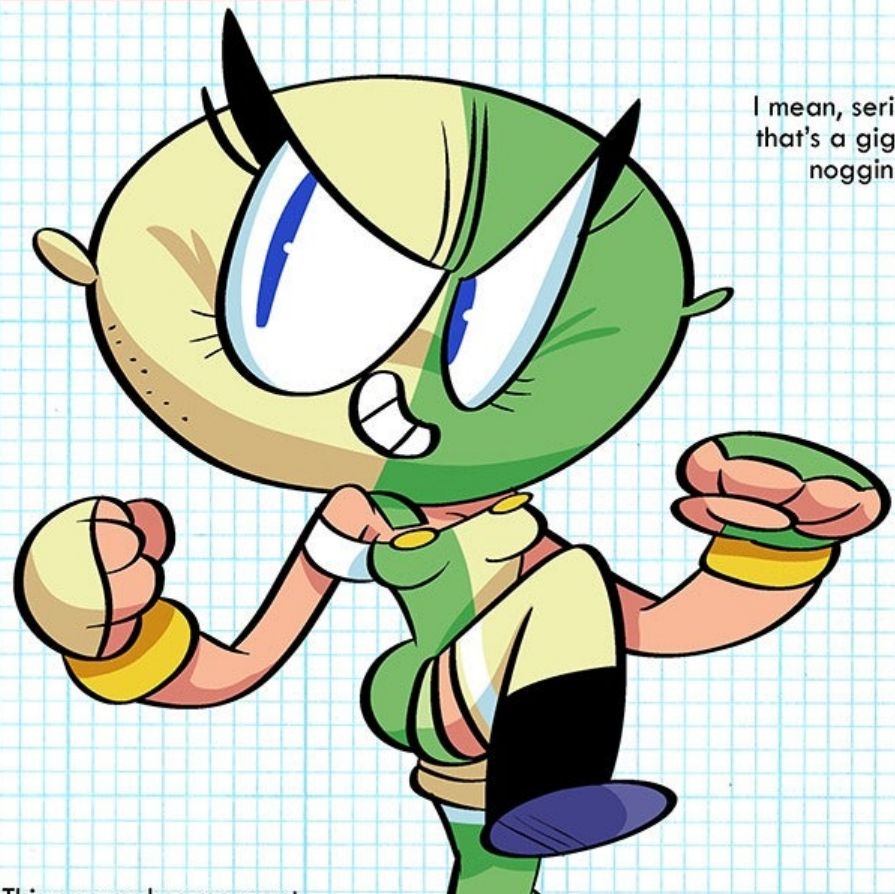
Her noggin can take on the form of any citrus fruit, but so far, we've seen lemon and grapefruit as seen above.

While in mid-nap, Lemonade felt at one with the lemons that inspired her, and suddenly a giant lemon fell from the heavens and she gained her new form. It gives her a juice fueled high jump that nearly looks like flying and juicy attacks!

DETAIL OF HELPERTONS

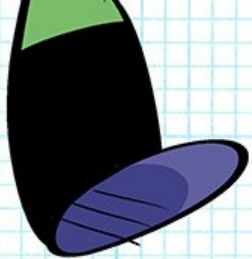
Lemonlime Overtime

I mean, seriously that's a gigantic noggin.



This one makes me want saltwater taffy.

Memories.



When she's really pumped, Super Citrus Lemonade can go into her final attack form, Lemonlime Overtime! For some reason, it enables her to split things in two.

Oh, hey. New storyline time. The one Kyle promised. Neat.

All you need to know at this point is the following: Strawberry always keeps up with Nintendo products, she just completed a spiririual journey that gave her two new color-change power-ups.

Today's marquee color palette is from Yoshi's sprite in Yoshi for NES. The one with the eggs. Not the one with the cookies.

Strawberry was trying to play a Mr Do Iceytimes Island on the Wii U while waiting for Marissa Leepthrok to show up. Marissa is an Alien American and one of Strawberry's best pals. Suddenly, there was a knock at the door and a little noggin-thingee put electro future handcuffs on Strawberry. She upgraded to Strawberry the Red in anger.

Today's marquee color palette is from Little Samson's sprite in Little Samson for NES. Did I do that one already? I don't care. I'm doing it anyway.
